

BAXISPA

BAXI S.P.A.'s Policy for Quality, Health & Safety and Environment

BAXI S.p.A. commits itself to meet its customers requirements operating in compliance with Product, and Environmental, Occupational Health and Safety current statutory regulations, pursuing the continuous improvement of its performances.

Through its organization the Company will therefore provide to issue, to release, to develop, to manage, plans, procedures, instructions on the above matter, to ensure that their employees:

- comply with the existing laws,
- carry out the normal activities in the best technically feasible conditions;
- use materials and products involving the least possible impact on the Environment and Occupational Health and Safety during the production process, as well as on their customers during the installation, use and end of life of the products.

BAXI S.p.A. commits itself also to:

- minimize any risk for the health and safety of workers and negative environmental impacts related to the plants management in the processes, using the energy and natural resources more efficiently;
- prevent in any way the occurrence of accidents which might cause damages to the environment, health and safety of its employees and for the installed products, to the customers and final users too;
- develop products, processes and working methods more and more environmentally friendly, also considering ergonomic principles with the objectives of comfort and satisfaction of their employees, customers and final users;
- improve communication, informative and procedural processes for both the company and its stakeholders (customers, suppliers, institutions, organizations, etc....);
- continue, through appropriate training, awareness, and involvement of all employees, to respect the principles of Environmental Protection, Occupational Health and Safety, and customer satisfaction;
- give power to Health-Safety-Environment, Quality Assurance and Quality Control Company Bodies, within their competences, the power to stop the processes, when the specified requirements are not satisfied.

This document is communicated to all employees, suppliers and customers and is available to anyone who requires it and it can also be found on the Company web site: www.baxi.it
